

Ruberto Israel & Weiner's Litigation Team Obtains Dismissal Of Gender Discrimination Claim.

Christopher P. Litterio, Managing Shareholder, and David W. Robinson recently obtained summary judgment from the Massachusetts Superior Court dismissing the case filed against their client by a former employee alleging gender discrimination and hostile work environment claims. The former employee claimed that the Company created work environment hostile to women, and that it discriminated against her on the basis of gender when it terminated her employment. Based on the evidence obtained by RIW through discovery, the Court found that there was no basis to support the Employee's claims.
